OPERATING PROCEDURES – eCO₂care REGISTRY

1. GENERAL

The eCO₂care VER Registry provides access to the projects certified by RINA SpA regarding GHG (Green House Gases) emissions reduction and, in particular, provides the amount of not-emitted or fixed CO₂, concerning the accounting and the registration of VER credits.

A real time database of the projects and VER credits can be found in the PUBLIC AREA of the Website.

Exclusively account holders will be able to operate in the registry and gain access to the RESTRICTED AREA of the Website.

2. ACCOUNT REGISTRATION

Subscription to eCO₂care VER Registry occurs at the end of RINA certification procedure.

To register an Account (User or Trader) or to update authorised personnel on a subscribed account, the following procedure should be followed:

- Fill the FORM on www.eco2care.org
- Fill the Application Form, after receiving by eCO₂care Registry Administrator, with Account Holder's contact details and Fiscal data
- Provide the proof of payment as an annex to the application form.

After Account Registration, eCO₂care Registry Administrator will send the login details to the Contact Person.

3. PROJECTS REGISTRATION

Projects need to be held by a subscribed User Account in order to be registered.

To register new project(s), a subscribed User Account Holder should use the following procedure:

- Fill the FORM on www.eco2care.org
- Fill the Application Form, after receiving by eCO₂care Registry Administrator, with Project(s) details
- Provide the proof of payment as an annex to the application form.

After Project(s) Registration, eCO₂care Registry Administrator will update the Registry Website with projects' details and credits.

4. VALIDITY

An User Account is active for an unlimited period as long as a residual credit, coming from one or more projects, persists.

A Trader Account has one year validity.
